I actually do not know why they threw named combos like cardiod or harmonics in there. But w/e :unsure:

And how could they miss Leigun too? What a cheap trick book.

i think a better name for those is  
extended indexaround  
extended middlearound etc.

and yes those should be in because they are tricks

hmm...and you also forgot extended thumbaround...

which also leads to extended thumbspin, extended indexspin, etc.

Figure 8 could be done with just hand movements. That's how it's done.
